I think the week of Jan. 13<sup>th</sup> would be a good time to set up the meeting as well. Probably can discuss the Area 2 RI comments and your responses to the Area 1 FS comments by then.

Jim

Thanks Jim,

I was discussing possible dates with Cynthia yesterday. We felt the week of the Jan. 13<sup>th</sup> would be good. We thought of tacking it onto the Otsego Twmsp. Dam meeting in Plainwell the following week but thought that may be too late in the month to have the discussion. Your thoughts.

**Subject:** EPA Draft Comments on the Area 2 SRI Report

Chase,

Per our Nov 21 meeting in Detroit, and after subsequent discussions, I am providing EPA's draft comments on the Area 2 Supplemental Remedial Investigation Report. These are not all of EPA's comments on this document, but what we have at this point. These should help Georgia-Pacific gain a better understanding of EPA's concerns regarding this document and how to reformat the

Area 3 SRI report before its submittal. We have coordinated with MDEQ and share similar concerns over this report. MDEQ will be submitting their draft comments to you this week as well.

I anticipate it may be best to have a meeting to discuss these comments in mid-January.

If you have any questions, please feel free to contact me.

Thanks

Jim Saric
